Dear Parents & Carers

Playing chess in school helps children achieve many learning outcomes faster and more effectively. Put simply, chess makes kids smarter.

Chess enables all children to shine and be recognised intellectually. Playing chess develops self-confidence, decision making ability and instils beliefs that children have the ability to control their destiny.

We are pleased to offer Chess Club for Year 3-7 children from 10.30-11.30am at All Saints every Tuesday in the Library. This term the Chess Club begins on Tuesday 3rd February, 2015.

What happens at Chess Club?

- Build Mental Muscles™!!
- Improve current chess playing ability
- Imagine the chess board without seeing it (Visualisation)
- Develop a love of chess of learning and of thinking

Each session starts with a formal lesson; all players will learn a new strategy, idea or skill each week. Then they have time to put those skills into practice with activities and games. All games are monitored and supervised by the coach who provides individual feedback along the way.

Thank you

Gina Cusano
Chess Coordinator
